The Truth About NAFTA

It Is Causing Our Industrial Base To Crumble

Imagine that the Congress enacted for the state of Michigan alone a special law that:

- Dropped the minimum wage to \$0.50/hour;
- Exempted employers from child labor laws;
- Expanded the work week;
- Reduced health and work place safety laws;
- Banned unions, and
- Gave Michigan exporters full, duty-free access to Ohio and the rest of the States.

Isn't this ridiculous? Well, this is exactly what NAFTA did for Mexico to the detriment of Ohio, Texas and the rest of the U.S.

As an Agent of Change, what will you do about NAFTA and other job-killing “free trade” deals?

- Keep them;
- Cancel them:
- Renegotiate (To what ends)?

we vote on March 4th**
