

Clinton, Obama and McCain

Our World Trade Organization Agreement

What Will You Do About This?

By voting to join the World Trade Organization, the U.S. Congress agreed to concede a major part of U.S. sovereignty and usurp its democratic legislative processes, including:

- Conform U.S. laws, regulations, and administrative procedures to the WTO agreement.
- Subject all U.S. federal, state, and local laws and practices that affect trade to international review by WTO.
- Allow any WTO member to challenge any U.S. law, federal, state, or local, as a trade impeding barrier.
- Take all trade disputes with other nations to the WTO judiciary.
- Give the WTO final jurisdiction over all trade disputes.
- Agree that the proceedings of WTO judicial panels will be kept secret. All documents used shall remain secret. Votes of panelists shall be secret. **No appeal exists outside of the WTO.**
- Empower the WTO to enforce its ruling by imposing fines on the U.S. until we comply.

The WTO is a flawed international organization that limits our ability to act in our best interest.

As an Agent of Change, what will you do about the WTO and other job-killing “free trade” deals?

Stay in it, Leave it, or Reform it (To what ends)?

**Tell us in Ohio and Texas before
we vote on March 4th**
